INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF AL MASANE AL KOBRA MINING COMPANY (A SAUDI JOINT STOCK COMPANY)

Introduction

We have reviewed the accompanying interim condensed statement of financial position of Al Masane Al Kobra Mining Company (A Saudi Joint Stock Company) (the "Company") as at 31 March 2023, and the related interim condensed statements of profit or loss and other comprehensive income, changes in equity and cash flows for the three-month period then ended, and other explanatory notes. Board of Directors is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

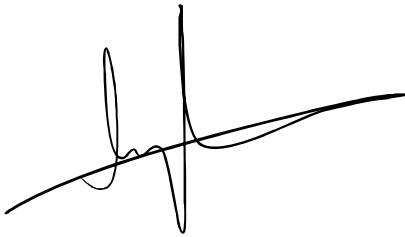

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

AL MASANE AL KOBRA MINING COMPANY (A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

At 31 March 2023

(All amounts in Saudi Riyals unless otherwise stated)

1. COMPANY INFORMATION

Al Masane Al Kobra Mining Company ("the Company" or "AMAK") is a Saudi Joint Stock Company approved by the Ministry of Commerce and Investment Decree Number 247/Q dated 9 Shawwal 1428H (corresponding to 21 October 2007) and registered in Jeddah under Commercial Registration No. 4030175345 on 7 Muharram 1429H (corresponding to 16 January 2008). During 2015, the registered office of the Company was relocated from Jeddah to Najran. Accordingly, Najran Commercial Registration No. 5950017523 dated 3 Duh Al-Qi'dah 1431H (corresponding to 11 October 2010) was modified to be main Commercial Registration. During 2021, the Company obtained commercial registration number 5950123986 dated 22 Dhu Al-Hijjah 1442H (corresponding to 1 August 2021) of a new branch in Najran.

The registered office is located at P.O. Box 96, Najran, Kingdom of Saudi Arabia. The Company is engaged in mining of non-ferrous metal ores (aluminium, copper and lead), mining of ores of precious metals belonging to gold, silver and platinum group, and wholesaling precious metals and gemstones.

The Company commenced its commercial production on 1 July 2012. The principal activity of the Company is to produce zinc and copper concentrates and silver and gold dore as per the license Number 86/Q dated 13 Ramadhan 1429H (corresponding to 13 September 2008) issued by Ministry of Industry and Mineral Resources and renewed for further thirty years with license number 142941, starting from 30 June 2022 (corresponding to 1 Dhu Al-Hijjah 1443H).

In addition, the Company obtained the license number 9598/Q dated 24 Duh Al-Qi'dah 1436H (corresponding to 8 September 2015) for twenty years and expiring on 23 Duh Al-Qi'dah 1456H (corresponding to 2 February 2035) from the Ministry of Industry and Mineral Resources for the exploitation of gold and silver dores from accompanying site Mount Guyan Surface.

During 2021, the Company commenced the process for Initial Public Offering ("IPO"). The Capital Market Authority ("CMA") Board issued its resolution approving the Company's application for the offering of 19.8 million shares representing thirty percent of the Company's share capital on 22 December 2021 (corresponding to 18 Jumada Al-Ula 1443H). As at 29 March 2022 (corresponding to 26 Sha'ban 1443H), the Company's shares became listed on the Saudi Stock Exchange (Tadawul) in the Kingdom of Saudi Arabia. The Company's status changed from "A Saudi Closed Joint Stock Company" to "A Saudi Joint Stock Company". The legal formalities in this regard were completed during year ended 31 December 2022.

As at the reporting date, the Company has two mines namely Al Masane underground mine and Mount Guyan mine. The Company is expanding its current activity by further developing the Moyoath orebody development project for the purpose of increasing the productive capacity of Al Masane underground mine.

2. BASIS OF PREPARATION AND CHANGES TO THE COMPANY'S ACCOUNTING POLICIES

2.1 Statement of compliance

The interim condensed financial statements for the three-month period ended 31 March 2023 have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by Saudi Organization for Chartered and Professional Accountants ("SOCPA"). The Company has prepared the interim condensed financial statements on the basis that it will continue to operate as a going concern. The Board of Directors consider that there are no material uncertainties that may cast significant doubt over this assumption. They have formed a judgement that there is a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future, and not less than 12 months from the end of the reporting period.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual financial statements as at and for the year ended 31 December 2022. In addition, results of the interim period ended 31 March 2023 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2023.

2.2 Basis of measurement

These interim condensed financial statements have been prepared on the historical cost basis, except for employee benefit obligation which is recognized at the present value of future obligations using the projected unit credit method. Further, the interim condensed financial statements are prepared using the accrual basis of accounting and going concern concept.

2.3 Functional currency

These interim condensed financial statements are presented in Saudi Riyals (SR), which is also the Company's functional currency.

2. BASIS OF PREPARATION AND CHANGES TO THE COMPANY'S ACCOUNTING POLICIES (continued)

2.4 Significant accounting judgements, estimates and assumptions

The preparation of the Company's interim condensed financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. The significant judgements made by management in applying the Company's accounting policies and the methods of computation and the key sources of estimation are the same as those that applied to the financial statements for the year ended 31 December 2022. Any future change in the assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future periods.

2.5 New Standards, Interpretations and Amendments adopted by the Company

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2022, except for the adoption of new standards effective as of 1 January 2023. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective. Several amendments apply for the first time in 2023, but do not have any material impact on the interim condensed financial statements of the Company.

2.5.1 IFRS 17 Insurance Contracts

In May 2017, the IASB issued IFRS 17 Insurance Contracts, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. IFRS 17 replaces IFRS 4 Insurance Contracts that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. IFRS 17 is based on a general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The amendments had no impact on the Company's interim condensed financial statements.

2.5.2 Definition of Accounting Estimates - Amendments to IAS 8

The amendments to IAS 8 clarify the distinction between changes in accounting estimates, and changes in accounting policies and the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Company's interim condensed financial statements.

2.5.3 Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2

The amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments had no impact on the Company's interim condensed financial statements but are expected to affect the accounting policy disclosures in the Company's annual financial statements.

2.5.4 Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments to IAS 12 Income Tax narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities. The amendments had no impact on the Company's interim condensed financial statements.

2. BASIS OF PREPARATION AND CHANGES TO THE COMPANY'S ACCOUNTING POLICIES (continued)

2.6 Mine properties, property, plant and equipment and right-of-use assets

Change in estimate

Based on an assessment and the recommendation of the management's consultant, the total expected units of production (UOP) have been revised from 1 January 2023 for Al Masane Mine to 7.04 million metric tonnes (1 January 2022: 8.2 million metric tonnes) and for Mount Guyan Mine to 3.6 million metric tonnes (1 January 2022: 4.1 million metric tonnes). Such change in the UOP has been applied prospectively from 1 January 2023. The change in UOP resulted in change in depreciation and amortization charge for the current period by approximately SR 1.3 million. However, impact on future years cannot be calculated due to annual reviews of remaining useful life and reserves.

3. SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief executive officer. An operating segment is group of assets and operations:

- (i) engaged in revenue producing activities;
- (ii) results of its operations are continuously analyzed by management in order to make decisions related to resource allocation and performance assessment; and
- (iii) financial information is separately available.

All of the Company's operations are located in Najran, Saudi Arabia. For management purposes, the Company is organized into business units based on the main types of activities and has two reportable operating segments, as follows:

- Al Masane mine segment represents extraction and production of the base metals i.e. copper and zinc concentrates and byproducts like precious metals i.e. gold and silver does;
- Mount Guyan mine segment represents extraction and production of the precious metals i.e. gold and silver does; and
- Corporate is responsible for effective management and governance including funding of the projects. The presentation of Corporate information does not represent an operating segment.

No operating segments have been aggregated to form the above reportable operating segments. The Chief Executive Officer monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment and is considered to be the Company's chief operating decision maker. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the interim condensed financial statements. However, the Company's severance fees, zakat and income taxes are managed on corporate basis and are not allocated to operating segments.

15 FAIR VALUE OF ASSETS AND LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

At 31 March 2023

(All amounts in Saudi Riyals unless otherwise stated)

15 FAIR VALUE OF ASSETS AND LIABILITIES (continued)

If the inputs used to measure the fair value of an asset or liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest input level that is significant to the entire measurement.

The management assessed that cash and cash equivalents, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. During the period ended 31 March 2023 and year ended 31 December 2022, there were no movements between the levels.

Fair values of the Company's loans and borrowings are determined by using DCF method using discount rate that reflects the borrowing rate as at the end of the reporting period. As at 31 March 2023 and 31 December 2022, the carrying amounts of loans and borrowings were not materially different from their calculated fair values.

16 SUBSEQUENT EVENTS

Subsequent to the period ended 31 March 2023, the Board of Directors approved the Company's dividend policy for the next two years 2023 and 2024, subject to approval in the next General Assembly Meeting. The dividend policy states that the Company will distribute all profits achieved during 2023 and 2024 as a semiannual dividend to shareholders.

Further, the Board of Directors approved the share-based compensation incentive plan for certain key employees applicable from 01 May 2023. The plan entitles the eligible employees to receive a specific number of shares on the dates specified in the plan.

17 APPROVAL OF THE INTERIM CONDENSED FINANCIAL STATEMENTS

These interim condensed financial statements have been authorized by the Board of Directors on 18 May 2023G, corresponding to 28 Shawwal 1444H.
